Re: Letter of reference for Gas Track Engineering Ltd.

To whom it may concern,
Jason Paziuk, founder of Gas Track Engineering, has been providing Bering Exploration services for over 15 years. His company Vision Geomatics became our main survey provider and as he transitioned into Focus Surveys, and then WSP, we maintained that relationship. We continue our relationship with Jason and have utilized the services of Gas Track Engineering for land surveying and our gas leak detection needs. We trust his work, his expertise and that of his team, and appreciate the service he has provided Bering Exploration.

Recent projects include:

16-35-77-12-w6 pipeline asbuilt legal survey, 2020

15-35-76-8-w6 riser site asbuilt, 2020

3-17-34-13-w4 wellsite asbuilt, 2019

Gas Leak scanning for Valhalla sites, 2019

Please feel free to call me to answer any questions or discuss further.

Sincerely,

Paul Mangan, P.Eng
