Re: Letter of reference for Gas Track Engineering Ltd.

To Whom it may concern,

I am pleased to recommend the services of Gas Track Engineering Ltd. Keyera has utilized Jason Paziuk and the Gas Track team through 2021 and has been completely satisfied with their performance; they do an excellent job, working diligently and effectively. Gas Track's field technicians are a pleasure to work with, have in-depth knowledge of a large array of sites and equipment, and have continuously proven that their emission surveying skills are second to none. The Gas Track Engineering office staff are competent, professional, and always ready to answer any questions thrown their way. Their computational, data management and reporting skills from both a quality and business perspective are sharp and effective. Gas Track Engineering has been flexible and worked around our schedule; they are dedicated to safe and quality work. We trust Jason's work, his expertise, and that of his team.

Recent projects include:

- Keyera 2021 Fugitive Emissions Survey, 2021
- Enhancement of Fugitive Emissions Management Plan (FEMP), 2021
- Enhancement of Methane Reduction Retrofit Compliance Plan (MRRCP), 2021
- 03-19-067-07W6 Wapiti Gas Plant Leak Detection, 2021
- 05-18-055-21W4 Gas leak detection at Tank Farm

Please feel free to contact me to answer any questions or discuss further.

Sincerely,

Jeffrey Latonas  
Emissions Advisor
